Overview

The AI Invoice Priority Ranking report provides a detailed view of invoices based on their priority ranking. It helps users efficiently manage invoice processing by identifying high-priority invoices that require immediate attention.

Key features

- Displays invoices ranked by priority for better decision-making.
- Uses AI-driven insights to categorize invoices based on urgency.
 - All these charts support multiple visualization options, including Donut Chart, Vertical or Horizontal Bar Chart, Funnel Chart, Stacked Chart, Line Chart Metric Chart, and more.

Click **View Report** to view a detailed invoice report, listing priority-ranked invoices along with key details.

The screenshot shows the 'gmpact' system interface. The 'Reports' menu is highlighted. A red box highlights the 'AI Invoice Priority Ranking' report link. Below the report header, a table lists invoice details. The table includes columns for Priority Ranking, Invoice, AP Ref No, Invoice No, Invoice Date, Document Type, Invoice Type, Vendor Name, AP Vendor Code, Currency, Total Amount, Legal Entity, Current State, and Current Owner. The table shows 10 rows of data, including a subtotal row.
